

**SILVER SAGE NURSERY & GARDEN GALLERY
2011 PLANT LIST**

NOTES:

*PHONE 250-743-3679 to confirm AVAILABILITY

*Resistant to Deer (RTD); even if listed as resistant, deer will sample just about everything! We use Plantskyde, a bloodmeal based product that lasts for up to 3 months.

*We have many other plants not listed so please ask & we'll see if we have what you're looking for!

FRUIT TREES: Dwarf (about 10'), Semi-Dwarf (about 12-15'), Standard (about 15-20 feet) .

Fruit trees respond well to significant pruning & will produce more as a result! ** Indicates a pollinator is required. Plant peaches & nectarines under an eave on the south side of a building to minimize peach leaf curl & maximize ripening. Fruit trees need protection from deer. All fruit trees (except Gravenstein apples) are in peat pots that can be planted directly in the ground.

# Available	Size	Plant Name
4	now \$50	5 gal. Combination Cherry dwarf stock

MEMORIAL TREES: Remember a loved one by planting a special tree. Choose from a selection of flowering deciduous or evergreen trees or perhaps a fruit tree.

FAMILY PET MEMORIAL PLANTS: May we suggest a dwarf and bonsai tree to plant in a decorative pot as a way to remember your pet?

GIFT CERTIFICATES AVAILABLE BY PHONE OR IN PERSON:
